

PROFESSIONAL SUMMARY

Full-Stack Developer with production experience building responsive, elegant desktop web UIs and scalable backend services across the JavaScript ecosystem (React, Next.js, Node.js, MongoDB). Shipped AI-powered features end-to-end, from LLM-based assistants to payment-gateway and authentication integrations, writing production-ready code in cross-functional teams. Skilled in Generative AI (LangChain, RAG, LLMs) and software design patterns, with a data-driven approach to performance, quality, and user experience. Keen interest in products that solve real trust, security, and compliance problems.

KEY SKILLS

Languages : JavaScript (ES6+), C/C++, Python, SQL, HTML5, CSS

Web & Integration : React.js, Next.js, Node.js, Tailwind CSS, Express.js, RESTful APIs, MongoDB, Redux Toolkit, JWT & Cookie-Based Authentication, Stripe API, PayPal API

Generative AI : LangChain, RAG (Retrieval-Augmented Generation), LLMs, Runnables, Agentic AI

Core Competencies : OOPs, Data Structures Algorithms, System Design, DBMS, Computer Networks, Problem Solving, Operating

Engineering Practices : Design Patterns (Component-Based, MVC, Flux/Redux), Git/GitHub, Performance Optimization, CrossBrowser Compatibility, Accessibility

EXPERIENCE

- Edusmark.ai (via Cylsetech)** [Remote](#)
Frontend Developer Intern *July 2025 – April 2026*
 - Built and shipped responsive, production-ready UI components for an AI-powered EdTech platform, integrating RESTful APIs and Redux Toolkit for scalable state management.
 - Integrated Backend APIs and contributed to AI feature development, collaborating cross-functionally to ship production-ready features end-to-end.
 - Converted high-fidelity Figma designs into pixel-perfect React.js and Next.js components; implemented JWT and cookie-based authentication and real-time streaming functionality.
 - Optimized React components and Tailwind CSS layouts, improving page performance, accessibility, and cross-browser compatibility.

PROJECTS

- Bazario — Full-Stack E-Commerce Platform** | [GitHub Repository](#) *Sep 2024*
Next.js, React, Node.js, MongoDB, Redux Toolkit, Tailwind CSS, Ollama (LLaMA 3.2)
 - Architected a full-stack e-commerce application and built an AI shopping assistant using locally hosted LLaMA 3.2 via Ollama for natural-language product discovery and order support.
 - Designed a stateful multi-turn conversational backend with session memory and store-specific system prompts, demonstrating early agentic AI patterns for context-aware responses.
 - Integrated JWT authentication, PayPal checkout, Cloudinary image uploads, and deployed the application to Render and Vercel.
- Doctor Appointment Booking Platform** | [GitHub Repository](#) *Jul 2024*
Node.js, React, MongoDB, Stripe API, REST APIs
 - Developed a responsive healthcare booking platform with secure authentication, dynamic search, and Stripe payment integration for seamless online transactions.
 - Implemented secure authentication flows and integrated the Stripe payment gateway for seamless online transactions.

EDUCATION

- Institute of Engineering and Technology, Lucknow** *Lucknow, U.P., India*
B.Tech – Computer Science and Engineering | CGPA (Current): 8.87/10 *Oct 2023 – Jun 2027*

ACHIEVEMENTS

- CODEFORCES** [PUPIL](#) | **Highest Rating – 1345**
 - Global Rank – 1730 in Codeforces Round 1022 (Div. 2), out of 30,000+ participants [Global Rank](#)
- CODECHEF** [2★](#) | **Highest Rating – 1556**
 - Global Rank – 264 in CodeChef Starters 176, Division 3 [Global Rank](#)
- OTHERS** : [AtCoder](#) [Beginner Contest 384](#): Ranked 5,280 of 10,000+ participants in AtCoder Beginner Contest 384

CERTIFICATIONS

- Tata Cybersecurity Analyst Simulation – Forage** | [Certificate](#) *Dec 2024*
 - Hands-on experience with Identity and Access Management (IAM), simulated security assessments, and professional technical documentation.
